The other successful applicants were allotted the remaining 196 000 shares in proportion to the shares they had applied for, and their excess application money was transferred to allotment.

All money due on allotment was received by 30 September.

Problem 10.3**Ledger accounts for issue of shares, forfeiture and reissue, and statement of shareholders' equity**

On 1 July 2002, Spain Ltd was registered as a public company.

On 4 July 2002, a prospectus was issued inviting applications for 20 000 shares payable 45c on application, 25c on allotment and 25c on each of two calls to be made at intervals of 3 months after the date of allotment.

By 31 July, applications were received for 24 000 shares. On 3 August, the directors allotted 20 000 shares to the applicants in proportion to the number of shares for which application had been made. The surplus application monies were offset against the amount payable on allotment. The balance of allotment monies was received by 12 August. Share issue costs of \$350 were paid on 31 August.

The two calls were made on the dates stated in the prospectus, but the holders of 1400 shares did not pay either call. In addition, a holder of another 600 shares did not pay the second call.

On 5 April 2003, the directors forfeited the 2000 shares on which calls were unpaid.

On 21 April 2003, the forfeited shares were reissued as fully paid for a consideration of 90c per share. Costs of forfeiture and reissue amounted to \$100, and previous shareholders were paid any refund to which they were entitled, in accordance with the company's constitution.

Required:

- A. Prepare general ledger accounts to record the above transactions.
- B. Prepare a statement of shareholders' equity of Spain Ltd on completion of the transactions.

Problem 10.5 Comprehensive problem

On 1 August 2001, Denmark Ltd was registered as a company, in order to take over the assets and certain liabilities of an existing business. The agreed values placed upon the assets taken over were as follows:

Land\$ 60 000
Buildings 240 000
Plant and equipment 90 000
Inventory 210 000
Accounts receivable (net) 75 000
(The gross value of the accounts receivable was \$78 000.)

Liabilities taken over comprised accounts payable totalling \$45 000 and a 10-year mortgage loan of \$120 000 on the land and buildings.

Shares were issued as follows:

To the vendor

300 000 fully paid 12% preference shares at a price of \$1 and 300 000 fully paid ordinary shares at a fair value of \$1, in full settlement of the agreed purchase price. These shares were issued on 15 August 2001.

To the public

A prospectus was issued inviting the public to subscribe for 600 000 ordinary shares to be issued at \$1, payable 25c on application, 25c on allotment and the balance in calls. Subscription lists closed on 30 September 2001, applications having been received for 720 000 ordinary shares but only 600 000 shares were allotted as originally planned. Surplus application money on 120 000 shares was applied in payment of amounts due on allotment and the balance was returned to unsuccessful applicants.

The accounts payable and the mortgage payable on the land and buildings were paid off on 1 October 2001. Formation costs and costs of share issues, amounting to \$2500, were also paid on this date.

All allotment money was received by 31 October 2001.

On 15 December 2001, the directors resolved to make a call of 25c per share on the public issue. The call money was received on all shares by 15 February 2002 with the exception of the amounts due on 20 000 shares. These shares were forfeited on 12 March and were subsequently reissued on 24 April 2002, credited as paid to 75c per share for 60c per share. No refunds were made to the former shareholders.

The company entered into a contract for building additions and \$180 000 was owing on this contract at 30 April 2002.

Required:

- A. Prepare entries in general journal form to record the above transactions.
- B. Prepare the statement of financial position of Denmark Ltd as at 30 April 2002.
